Subject: **TOWARDS ORGANIZATION OF INFORMAL SECTOR IN
THE FCT**

The Informal sector is a multiple and meaningful reality for productive units and workers who are outside the regulated economic activities and protected labour relationships, these becomes very important as it has brought about a new manifestation that are increasingly recognized as ways to promote urban economics and for the protection of the environment.

2. Existing Condition in The Proposed Locations:

- i. The propose locations are usually green reserves, open space, left over and easements ravaged by poor sanitation.
- ii. Open defecation is a common practice in these locations which pose serious health hazard and further environmental pollution.
- iii. Indiscriminate refuse disposal: this is eminent where there are surface drainages and water ways, the closure of the drainages could lead to flooding disaster, health and other environmental hazards related to this.
- iv. Creation of squatter settlements/slum: green area, open and incidental space are often hijacked by illegal occupants which becomes serious problem to the city

- v. Insecurity: such locations serve as hidden place to criminals and people of questionable characters which portend serious threat to the residence.
- vi. Thus, bellow are some benefit that comes with the proposal for easier and effective management of the city.
 - a. Sustainable Environmental protection
 - b. Creation of aesthetic and harmonies environment
 - c. Source of gainful and organize job/revenue generation
 - d. Enhancement of security
 - e. Complement the delivery of some essential goods and services
 - f. Food Security
 - g. Reduce cost of governance.
